

AQINA GROUP

AQINA Group consists of several companies who are all market leaders in their respective fields. We started our business a few decades ago as a humble red chicken (kampung chicken) exporter. We purchased red chickens from local chicken farms in Malaysia and exported to Singapore. Over the years, the group has become the biggest red chicken exporter in Malaysia, and has ventured into various parts of the red chicken business, such as chicken breeding, chicken broiling and farming, feed-mill operation and chicken processing, wholesaling and retailing.

Currently, we operate 10 AVA chicken farms in the southern part of Peninsular Malaysia which has a total capacity of 700,000 birds at any one point of time, and dominate 70% of the daily red chicken consumption by the Singapore.

AQINA

Company Logo

AQINA is an Arabic word; it has the meaning of "Best", "Happiness", "Harmony" and "Everlasting".

Company vision: We aim to produce healthier food choices for the community and contribute towards people living a better and healthier life!

In the year of 2004, the group noticed an overall reduction in the global pineapple supply, as many pineapple plantations in Malaysia and around the world were converted from pineapple planting to palm-oil or other more profitable agricultural commodity. The group decided to invest into pineapple business; we invested RM2million into our own pineapple plantation facilities; and also provided financial assistance to various sub-contractors in order to increase our overall pineapple planting capacity.

(Our 260acres pineapple plantation in Pontian)

Currently, we have a 260 acres of direct owned pineapple plantation in Pontian, which is just miles away from the famous Pekan Nanas ("Pineapple Town") and a 300acres contracted farm that we control through our sub-contractors.

With our hand-on management over the planting of the pineapples, we are able to secure constant supply of export quality fresh pineapples for delivery to our selected customers across the globe at any time of the year.

AQINA PINEAPPLE SDN. BHD.

(our packing centre at the heart of Pekan Nanas)

AQINA Pineapple Sdn. Bhd., a member of AQINA Group was incorporated in December 2006, who are tasked to market and distribute the group's pineapple supply.

We have a team of experienced marketing personnel and shipping assistants to handle Pineapple Orders from our customers from various parts of the world.

Our packing centre is located at the heart of Pekan Nanas ("Pineapple Town") in the southern part of Peninsular Malaysia, and has a capacity of 15 containers per week. The company is currently expanding the packing centre and applying for Malaysian Phytosanitary Certification Assurance ("MPCA") certificate, which will enable us to handle more containers in the future and also export our products directly to Japan and China.

After merely two years operations in pineapple marketing and exporting; AQINA Pineapple has become a well known and trustworthy pineapple brand locally and internationally, and one of the key fresh pineapple exporters in Malaysia. Our pineapples are currently exported directly to ports in Bandar Abbas in Iran; Contantza, Alexendra in Romania; Mersin in Turkey; Copenhagen in Denmark; Aqaba in Syria; Ain Sukhna in Egypt; Benghazi in Libya; Dubai, Jebel Ali and Jeddah in U.A.E.

(our MD2 in the field)

AQINA Pineapple Sdn. Bhd., is invited by the Sarawak State Government to participate in their "Tanjung Manis Halal Park" project, and we are allocated a 6,000 acres land for pineapple planting for the next 99 years started from 2009.

AQINA Pineapple Sdn. Bhd. (via its subsidiary - AQINA Pineapple Sarawak Sdn. Bhd.), will plant various popular species of pineapple such as M36, Josapine, Maspine, MD2 in the Halal park. In the future, AQINA Pineapple will probably have the biggest Pineapple Plantation in Malaysia, and become the number 1 pineapple exporter in Malaysia.

Here are photos of our packaging processes:

1 Pineapple plantation workers are harvesting the fresh pineapple fruit. All pineapples are hand-picked and handled with care.

2 Pineapples are transferred from truck to the packing platform carefully. All pineapples are treated for antifungal before packing into carton box.

3 All pineapples are inspected manually to ensure only the high quality fruits are packed for exporting.

4 Pineapples in the carton box: we pack 5-8 pineapples in one carton box depending on the pineapple size required/ordered by the customers.

5 Exporting ready packed pineapple. Our standard carton box: Ext: 491mm(L) x 402mm(W) x 143mm(H) Quality: K175x M180 XK175BF

6 Air-conditioned Container will be set at +7degree Celsius, and it can takes up to maximum 2,200boxes (Approximate 12,600piece of pineapple in one container). Minimum order required is 1,900boxes per container.

7 Loading of packed pineapple box into Standard Air-conditioned Container (40RH).

8 Marketing personnel random sampling the packed carton boxes before loading into container to ensure customers receive only the best exporting quality fresh pineapple.

Here are some of the packing carton boxes used in our packing centre:
